Dear Cindy:

Starbucks Coffee Company is pleased to announce that Groupdyne.com has been named our exclusive restaurant reservation provider for our partners (employees) starting March 1<sup>st</sup>, 2010.

As part of this agreement, Groupdyne.com will be promoted at Starbucks through our PerksCard program to more than 120,000 partners nationwide, which includes partners in our corporate offices here in Seattle and throughout the US. Groupdyne.com will not only create a special website that will feature special discounts at your member restaurants, but will also provide a free dining concierge service to those at Starbucks needing additional restaurant recommendations. We feel this partnership will be exciting news for restaurants in all of your 27 US markets where we have partners that will happily take advantage of these great new offers.

The minimum offer to take part in this new website is a 10% discount on food and non-alcoholic beverages and the discounts must be available to groups of any size provided that the reservations are made via the Groupdyne.com website.

We look forward to this wonderful partnership and are excited to start taking advantage of these great new dining offers.

Sincerely,

*Melody Szeto*
